MEMORANDUM FOR: Dr. R. J. Smith  
Deputy Director (Intelligence)  
Central Intelligence Agency

Jack:

Attached is a copy of a memorandum RSE did on the OSR study SR IM 69-12, "Soviet Military Resistance to Strategic Arms Talks Increases."

As you will see, we had serious disagreements with the OSR paper, which addresses itself to an issue of great importance to policy makers at the present moment.

You are probably aware of these differences, since they are not entirely new. Under the circumstances, I just wanted you to be aware of what we had done.
